

GEOLINKS ACCELERATOR

EARLY RESEARCHERS SUPPORT PROGRAM

GEOLINKS is a conference on Environmental Sciences and with its 2020 issue is launching an Accelerator Program for supporting young scientists, giving them the opportunity to publish their latest researches for free in the conference proceedings.

A PROGRAM TO SUPPORT THE YOUNG SCIENTISTS

To all researchers in undergraduate and postgraduate degrees, GEOLINKS offers the possibility to publish their papers for FREE for inclusion in the conference proceedings and in the electronic databases that GEOLINKS works with.

The support program is initiated with the 2020 conference edition. Aiming to support and accelerate the scientific career of undergraduate students, which usually have difficulties in funding the publication of their own research.

BENEFITS OF PARTICIPATION

1. Professional guidance and feedback from the scientific committee of GEOLINKS prior accepting.
2. The research will be included in the printed and electronic copy of the conference proceedings with ISSN and ISBN numbers. The participant will receive an electronic copy of the full proceedings. Participant's research will receive a unique DOI number.
3. The research will be submitted for evaluation and inclusion in the scientific databases, GEOLINKS is currently working with.
4. Participant's posters will be virtually presented and included in the conference program.
5. Membership in GEOLINKS growing scientific society with benefits in further collaboration.
